

To whom it may concern:

Sweet Leaf Cannabis of Springfield and Sweet Leaf Cannabis of Eugene works diligently to provide the best customer service and product available while working to stay compliant with all the new laws and limiting access to only those authorized to purchase cannabis products.

However, after just being reminded by management of checking ID's properly that same day, a new employee felt as though she was misled and duped by OLCC and mistakenly sold to an unauthorized person at our Eugene location. We continue to work diligently every day in training the amazing staff that we have cultivated over the last four years. Our Springfield location caught the underage decoy sent in by OLCC.

Even though we have checked 1000's of ID's unfortunately the new employee in Eugene got caught up. We had to terminate this budtender in which our customer and employee base was very fond of but we as a company have a no tolerance policy. OLCC does not have a termination policy regarding work permits. A budtender fired for breaking the law can sadly go work for another dispensary unbeknownst to the new owner.

We wish OLCC & the state would use some of the large tax revenue received and invest it into ID training in other locations other than Portland, like our Eugene area to supplement our own efforts into training our staff fortifying this industries ability to provide the best practices and education possible.

Thank you,
Sweet Leaf Cannabis of Springfield LLC
