Here's what the letter says. The one word I don't know for sure is in parentheses. Let me know if you can decode it!

Dear Mr. Baas and School Board

The attack on Krista Parent by Erin Royse MUST STOP. Krista has been a pillar of this community for more than three decades. She put Cottage Grove and this district on the map. Erin Royse is actively working to discredit her name, even after a thorough investigation has been conducted. The libel and slander she is (pushing) and the board's allowing it to continue is putting the district at great risk. All of us behind this letter have been approached by her first-hand.

Isn't this the sort of person that preyed on the "Bohemia EA" for months while living in the home she shared with her husband and children eventually having an affair with the EA and breaking up their home? Isn't this the same woman who professes free love and tolerance while crucifying Krista? Isn't this the same woman that pushed to her get partner a job in the school district? Her now saying she is pushing a fraternization policy is ludicrous.

We will encourage Krista to pursue personal legal action against Erin and will provide her with as much documentation of interactions we've had. We will not let this continue.

We would also like to inquire as to why Ms. Royse has been given so much latitude with her time as an employee. She was given time off that she didn't have and continued to use paid district time for personal use. Isn't that what she has accused Krista of? Krista has suffered great personal and professional loss as a result of many of Erin's actions.

Please put an end to this, you did your job with the investigation, now to the rest and support the person who deserves it.
